CONTENTS OF VOLUME 49

Anderson, C. H. and **Bisal, Frederick.** Snow cover effect on the erodible soil fraction, 287.
Baier, W. Observed and estimated seasonal soil water variations under nonirrigated sod, 181.
Baril, Roger et **Bitton, Gabriel.** Teneurs élevées de fer libre et identification taxonomique de certains sols du Québec contenant de la magnétite, 1.
Bisal, Frederick. See Anderson, C. H., 287.
Bishop, R. F., Chipman, E. W. and **MacEachern, C. R.** Effect of nitrogen, phosphorus and potassium on yields and nutrient levels in laminae and petioles of pickling cucumbers, 297.
Bishop, R. F., MacLeod, L. B., MacEachern, C. R. and **Jackson, L. P.** Effect of surface-applied limestone and superphosphate on herbage production and on some chemical properties of a dykeland soil, 47.
Bitton, Gabriel. See Baril, Roger, 1.
Bourbeau, G. A. See McKeague, J. A., 53.
Brach, E. J. and **Mack, A. R.** A technique for calibrating heat flux sensors, 173.
Burger, D. Calcium release from 11 minerals of fine-sand size by dilute sulfuric acid, 11.
Relative weatherability of calcium-containing minerals, 21.
Cairns, R. R. See van Schaik, J. C., 205.
Campagna, E. See Chamberland, E., 247.
Cann, D. B. See McKeague, J. A., 65.
Chamberland, E. et **Campagna, E.** Effet de différentes doses de N, P et K sur le rendement et la qualité de la pomme de terre, 247.
Chapman, F. M. and **Mason, J. L.** Effect of phosphorus and potassium fertilizers on the agronomic characteristics of spring wheat and their interaction on grain yield, 343.
Chipman, E. W. See Bishop, R. F., 297.
Clark, J. S. See Webber, M. D., 231.
Day, J. H. See McKeague, J. A., 161.
de Jong, E. and **Rennie, D. A.** Effect of soil profile type and fertilizer on moisture use by wheat grown on fallow or stubble land, 189.
Dekker, A. J. See Evans, E. J., 349.
Desjardins, J. G. See Schnitzer, M., 151.
Dionne, J. L. Comportement différentiel du lotier en regard du chaulage, 111.
Dormaar, J. F. and **Lutwick, L. E.** Infrared spectra of humic acids and opal phytoliths as indicators of palaeosols, 29.
Elliot, J. M. Effect of applied manganese, sulfur, and phosphorus on the manganese content of oats and flue-cured tobacco, 277.
Evans, E. J. and **Dekker, A. J.** Effect of nitrogen on cesium-137 in soils and its uptake by oat plants, 349.
Finn, B. J. See Halstead, R. L., 335, and MacLean, A. J., 327.
Graham, D. P. See van Schaik, J. C., 261.
Halstead, R. L. See MacLean, A. J., 327.
Halstead, R. L., Finn, B. J. and **MacLean, A. J.** Extractability of nickel added to soils and its concentration in plants, 335.
Hance, R. J. Influence of pH, exchangeable cation and the presence of organic matter on the adsorption of some herbicides by montmorillonite, 357.
Hennig, A. M. F. See Nyborg, Marvin, 79.
Heringa, P. K. Method for regulated soil leaching, 414.
Heywood, R. T., Stevens, Trevor and **Webber, L. R.** Cannery waste disposal on land, 211.
Ivarson, K. C. and **Sowden, F. J.** Free amino acid composition of the plant root environment under field conditions, 121.
Jackson, L. P. See Bishop, R. F., 47.
John, M. K., Lavkulich, L. M., Jungen, J. R. and **Leigh, J. L.** Interpretation of soil data by computer, 177.
Johnston, A. See Lutwick, L. E., 199.
Jungen, J. R. See John, M. K., 177.
Kalra, Y. P. See Soper, R. J., 319.
Khan, S. U. Some chemical characteristics of humic acid extracted from a Solonetz-Solod-Black soil sequence at Vegreville, Alberta, 168.
Some carbohydrate fractions of a Gray Wooded soil as influenced by cropping systems and fertilizers, 219.
Khan, S. U. and **Webster, G. R.** Effect of moisture on certain equilibrium ion ratios for a Solonetzic and a Chernozemic soil, 164.
Laliberté, G. E. See van Schaik, J. C., 95.
Langmaid, K. K. See McKeague, J. A., 53.
Lavkulich, L. M. See John, M. K., 177.
Leigh, J. L. See John, M. K., 177.

Lévesque, M. Characterization of model and soil organic matter metal-phosphate complexes, 365.
Lewis, E. T. and **Racz, G. J.** Phosphorus movement in some calcareous and noncalcareous Manitoba soils, 305.
Lowe, L. E. Distribution and properties of organic fractions in selected Alberta soils, 129.
Aspects of infrared spectra of humic acids in relation to methods of preparation, 257.
Sulfur fractions of selected Alberta profiles of the Gleysolic order, 375.
Lutwick, L. E. See Dormaar, J. F., 29.
Lutwick, L. E. and **Johnston, A.** Cumulic soils of the rough fescue prairie-poplar transition region, 199.
Maas, E. F. Irrigation requirements of grass-clover pasture on Vancouver Island, British Columbia, 171.
MacDougall, J. I. See McKeague, J. A., 53.
MacEachern, C. R. See Bishop, R. F., 47 and 297.
Mack, A. R. See Brach, E. J., 173.
MacLean, A. J. See Halstead, R. L., 335.
MacLean, A. J., Halstead, R. L. and **Finn, B. J.** Extractability of added lead in soils and its concentration in plants, 327.
MacLeod, L. B. See Bishop, R. F., 47.
Mason, J. L. See Chapman, F. M., 343.
McKeague, J. A. and **Cann, D. B.** Chemical and physical properties of some soils derived from reddish brown materials in the Atlantic provinces, 65.
McKeague, J. A. and **Day, J. H.** Oxalate-extractable Al as a criterion for identifying Podzol B horizons, 161.
McKeague, J. A., MacDougall, J. I., Langmaid, K. K. and **Bourbeau, G. A.** Macro- and micromorphology of ten reddish brown soils from the Atlantic provinces, 53.
Munro, D. C. Relationship of yield and total nitrogen uptake of Brussels sprouts plants grown in the greenhouse to available soil nitrogen, 313.
Nyborg, Marvin and **Hennig, A. M. F.** Field experiments with different placements of fertilizers for barley, flax and rapeseed, 79.
Omanwar, P. K. and **Robertson, J. A.** Modification of the ascorbic acid method for determining phosphorus in dilute solutions, 259.
Protz, R. See Raad, A. T., 89.
Raad, A. T., Protz, R. and **Thomas, R. L.** Determination of Na-dithionite and NH_4-oxalate extractable Fe, Al and Mn in soils by atomic absorption spectroscopy, 89.
Racz, G. J. See Lewis, E. T., 305.
Read, D. W. L. Residual effects from fertilizer on native range in southwestern Saskatchewan, 225.
Reid, A. S. J. and **Webster, G. R.** The manganese status of some Alberta soils, 143.
Rennie, D. A. See de Jong, E., 189.
Robertson, J. A. See Omanwar, P. K., 259.
Ross, G. J. See Turner, R. C., 389.
Saini, G. R. Effect of colloidal silica on mean weight diameter of soil aggregates, 159.
Schnitzer, M. and **Desjardins, J. G.** Chemical characteristics of a natural soil leachate from a Humic Podzol, 151.
Shaykewich, C. F. See Williams, John, 397, and Zwarich, M. A., 241.
Singh, S. Shah. Basic aluminum sulfate formed as a metastable phase and its transformation to gibbsite, 383.
Soper, R. J. and **Kalra, Y. P.** Effect of mode of application and source of fertilizer on phosphorus utilization by buckwheat, rape, oats and flax, 319.
Sowden, F. J. See Ivarson, K. C., 121.
Stevens, Trevor. See Heywood, R. T., 211.
Thomas, R. L. See Raad, A. T., 89.
Toogood, J. A. See Verma, T. R., 103 and 403.
Turner, R. C. and **Ross, G. J.** Conditions in solution during the formation of gibbsite in dilute aluminum salt solutions. III. Hydroxyaluminum products of reactions during the neutralization of aluminum chloride solutions with sodium hydroxide, 389.
Valentine, K. W. G. A Placic Humic Podzol on Vancouver Island, British Columbia, 411.
van Schaik, J. C. and **Cairns, R. R.** Salt and water movement into Solonetzic soils, 205.
van Schaik, J. C. and **Graham, D. P.** Improved outflow barriers for permeability measurements, 261.
van Schaik, J. C. and **Laliberté, G. E.** Soil hydraulic properties affected by saturation technique, 95.
Verma, T. R. and **Toogood, J. A.** Infiltration rates in soils of the Edmonton area and rainfall intensities, 103.
Moisture balance in soils of the Edmonton area, 403.
Walker, D. R. Sulfur in precipitation in central Alberta, 409.
Webber, L. R. See Heywood, R. T., 211.

Webber, M. D. and **Clark, J. S.** Reactions of phosphate with aluminum and Wyoming bentonite, 231.
Webster, G. R. See Khan, S. U., 164, and Reid, A. S. J., 143.
Wilcox, J. C. Peak flow requirements for sprinkler irrigation of orchards as affected by soil texture and peak evapotranspiration, 39.
Williams, G. D. V. Applying estimated temperature normals to the zonation of the Canadian Great Plains for wheat, 263.
Williams, John and **Shaykewich, C. F.** An evaluation of polyethylene glycol (P.E.G.) 6000 and P.E.G. 20,000 in the osmotic control of soil water matric potential, 397.
Zwarich, M. A. and **Shaykewich, C. F.** An evaluation of several methods of measuring bulk density of soils, 241.
